Congratulations on your purchase of the Meade Lightweight Telescope Cover. Ideal for star parties or weekend observing field trips, the lightweight cover shields your telescope from daytime heat, UV, and moisture. This cover is intended for short term usage for a few days for a given observing session. Do not use this cover for long term outdoor storage or permanent shelter for your telescope.

Simply drape the cover over your telescope with the reflective side out, then secure the cover in place with the drawstring at the bottom.

If moisture has formed on the outside of the cover, allow the cover to dry out before storing it. Store in a dry location indoors when not in use. Some wrinkling will occur the first few times of usage which is normal.

Each returned part or product must include a written statement detailing the nature of the claimed defect, as well as the owner's name, address, and phone number.

This warranty is not valid in cases where the product has been abused or mishandled, where unauthorized repairs have been attempted or performed, or where depreciation of the product is due to normal wear-and-tear. Meade specifically disclaims special, indirect, or consequential damages or lost profit which may result from a breach of this warranty. Any implied warranties which cannot be disclaimed are hereby limited to a term of one year from the date of original retail purchase.
